

**Project Problem and Outputs:** description and background of the research problem(s) you intend to address and descriptions of the individual outputs you expect to realize.

**Literature Review:** provide a description of the methodology and research approach that have been used by previous researchers on the problems you wish to address in your PhD study.

**Conclusion:** Based on the reviewed literature, describe the existing knowledge and experience that you will build on from your own research or that of others, and how your PhD project will contribute to new scientific knowledge.

*Interested candidates are requested to address their applications via email to:*

**Mrs. Jocelyne Mtaganda**

Postgraduate Studies Officer

Email: [jmutaganda@ur.ac.rw](mailto:jmutaganda@ur.ac.rw) or [jmutaganda@gmail.com](mailto:jmutaganda@gmail.com)

With a copy to:

**Prof. Leon Mutesa**

Associate Professor of Human Genetics

Multiple Principal Investigator

NIH-U01MH115485 Grant

College of Medicine and Health Sciences (CMHS)

University of Rwanda

Email: [l.mutesa@ur.ac.rw](mailto:l.mutesa@ur.ac.rw) or [lmutesa@gmail.com](mailto:lmutesa@gmail.com)

**Prof. Jean-Jacques Houben**

Professor of Visceral Surgery

Head of Service

CHU Marie-Curie

Faculty of Medicine

Université Libre de Bruxelles

Email: [jjhouben@ulb.ac.be](mailto:jjhouben@ulb.ac.be) and [jj.houben@chu-charleroi.be](mailto:jj.houben@chu-charleroi.be)
