Preamble

Policy refers to a course of action proposed by an organization such that if it is appropriately adhered with, then activities are well guided and operationalised. A policy is a statement of intent and is implemented as a procedure or protocol that deliberately contains guidelines meant to guide decisions taken and achieve rational outcomes. Policies are generally adopted by a governance body within an organization to give directions about what should be done.

An effective policy should be able to give the direction of what should be done during the course of action. This policy helps students to develop career learning goals and take action to enhance their professional careers. This Career guidance policy, therefore, is an important document that, if correctly applied, has the potential to improve the efficiency of the education system that provides readiness to the graduates to fit into their respective professions.

Every school must possess a policy to guide its strategic and operational directions. In an academic setting, a career guidance policy provides the basis for decision-making about students' career development. The main objective of this policy is to help students choose the right career path based on their education and specialty choices. In any medical school such as SoMP, it is imperative to have an important document that clearly stipulates what the school focuses on in terms of career guidance.

Therefore, the Career Guidance Policy enhances the vision and mission of the school.

Vision

We aspire to be a leading school that attracts, inspires, and develops a diverse group of leaders in healthcare working collaboratively for transformative and socially responsible healthcare nationally, regionally, and globally¹.

Mission

To provide innovative and context-relevant educational programs for medical, pharmacy, and clinical psychology practitioners; provide innovative and patient-centered health care services informed by cutting-edge research, and indulge in effective community Services¹.

A handwritten signature in blue ink, appearing to be the initials 'cy'.

Key Definition:

Career

A career is a profession for which one trains and is undertaken as a permanent calling².

Career Guidance

Career guidance refers to services and activities intended to assist individuals throughout their lives to make education, training, and occupation choices and manage their careers³.

Employability skills

A set of achievements, skills, understandings, and personal attributes that make graduates more likely to gain employment and be successful in their chosen occupations, which benefit themselves, the workforce, the community, and the economy⁴

Career management skills

These skills are competencies that help individuals identify their existing skills, develop career learning goals, and take action to enhance their careers⁵

Methodology

The SoMP career guidance policy was developed by the appointed team by DVC/SPIA and supervised by College Principal. This policy was developed based on the existing University of Rwanda policies and other related documents: The policy was approved by the School council/College Council.

Scope of this policy

This policy applies to all SoMP students, on how they study and learn at both undergraduate and post-graduate levels of their education.

The policy also applies to the teams of academic and non-academic staff who work together to nurture highly knowledgeable, skilled, well-behaved, and employable graduates from the SoMP.

Purpose of the Policy

This policy aims to help students choose the right career path based on their medical education and specialty choices.

A handwritten signature in blue ink, appearing to be the initials 'Uy'.

Access to the policy

Prior to joining SoMP, applicants have access to information through the website, open days, College Career Fairs, and the Induction weeks. Accessibility of the Career guidance policy should be for all prospective and ongoing SoMP students entitled to relevant course information, advice, assistance with course choice, and transition into the program based on their individual needs.

Responsibilities of different Actors

Institution responsibility

The Dean is the custodian of this policy and should oversee all career guidance-related activities. The implementing unit is the career and employability services.

Staff responsibilities {Both Academic & Non-Academic}

Dean, HoDs, Curriculum committees, academic leaders, Career, and Employability Unit.

They should:

- Ensure Industry-specific career education is embedded throughout all programmes in their area.
- Deliver target setting and employability teaching with transparent links to self-awareness, labour market knowledge, and planning embedded in the Career Coaching and Progression programme.
- Supports the development of the Career Coaching and Progression programme.
- Deliver individual and group impartial information, advice, and guidance to students.
- Coordinate centrally delivered opportunities for contact with employers and recruiters.
- Work closely with Careers counselors and mentors.
- Support the development of student's confidence and self-esteem to access learning, apply experience and make positive progression.
- Participate in relevant professional training and maintain an up-to-date awareness of appropriate resources they and their students can use to support career decision-making.
- Establish alumni network for integration, further study orientation and student mentorship.

A handwritten signature in blue ink, appearing to be the initials 'UY'.

- Provide timely and sufficient course information and advice to enable prospective students to make suitable choices.

Students' Responsibilities

- To be actively involved in and take ownership of their progression and career development. .
- Participate in all relevant tutorials, careers coaching programme, careers education, and guidance activities to strengthen their understanding of education, training, employment, and other progression opportunities.
- To work cooperatively with staff and other peers, respecting the views of others and the principles of Equity, Equality and Diversity.
- To contribute to the ongoing evaluation and improvement of the services

STRATEGIC AND OPERATIONAL DIRECTIONS OF CAREER POLICY

Strategy 1: Awareness of SoMP Programs and Policies

- Creation of awareness of SoMP programs among the prospective students, parents, and school leaders, especially those are offering subjects related to Health programs offered at SoMP.
- Create awareness of SoMP policies related to students' life in the SoMP to prospective students, heads of department, and the prospective students' parents.

Strategy 2: SoMP Careers portal

- Creation and management of a career portal for scholars to access professional internship, exchange programs, professional seminars, workshops, call for research and innovation projects, and other job opening opportunities.
- Develop and provide key information to help all students- both prospective students and current students learning more about career options for all disciplines/courses so they can be more explicit about their personal career pathways and how to access additional information or the skills needed to underpin their choices.

A handwritten signature in blue ink, appearing to be the initials 'UY'.

- Develop and provide systems and information to enable students to record and assess their progress.
- Avail of up-to-date labor market information through collaboration with the government agencies such as the Ministry of public services and labor, Ministry of Health (MoH), and other agencies responsible for collecting and disseminating such information.

Strategy 3: SoMP Professional Students' associations

- Manage and coordinate students' professional associations at SoMP.
- Collaborate with alumni groups for career development networks.
- Orient SoMP students to collaborate with medical professional bodies at national and international through seminars/workshops and outreach programs for their career development and mentorship.
- Establish a mechanism to support CMHS student associations with a faculty Petron/Matron for guidance in association activities.

Strategy 4: Career development and mentorship

- Providing support to SoMP students in their professional development to become transformative leaders in their focus areas through workshops, public talks/lectures, and seminars.
- Establish a mechanism through which faculty staff/alumni would mentor students and develop the mentor-mentee relationship for career development.
- Establish a mechanism for faculty staff to offer systematic practical training and consultation processes that foster ongoing professional development.
- Improving the quality of care and treatment service delivery through joint observation, discussion, and direct problem-solving.

Strategy 5: Partnerships and networking for students' career development

- Networking with national, regional, and international institutions with regard to student internship, placement, volunteer opportunities, job shadowing, scholarships, and other opportunities.
- Coordinating students' exchange programs for career development in their specific specialties.

A handwritten signature in blue ink, appearing to be the initials 'UY'.

- Collaborating with partners to involve students in research and innovation development and advising on project funding opportunities.

Strategy 6: Engagement with industry

- Offering industry-sponsored activities for students' career development.
- Collaborating with industries for programme development and review.
- Support students in securing industrial placements and work experience.
- Providing career guidance and social support to students at clerkship/placement sites.
- Monitoring and assessing learning challenges at clinical placement sites.
- Collaborating with health facilities to improve the learning at clinical clerkship/placement sites.

Strategy 7: Employment readiness

- Preparing students to acquire soft skills for available job opportunities.
- Orienting students through career coaching and mentorship programs, personal goal setting, exploring opportunities in career employment, and exploring their careers in entrepreneurship.

Strategy 8: Systematic monitoring of the SoMP graduates

- Establishing alumni groups
- Collaborating with alumni groups for career development networks.
- Carrying out Periodical Tracer study to SoMP graduates to inform for adjustment of the training programs and curriculum reviews about available job opportunities and current job trends.

A handwritten signature in blue ink, appearing to be the initials 'ly'.
